3. Reasons for the revision

Regarding the Group's projected consolidated operating results for the six-month period ended April 30, 2026, the Company has revised the projection upwards. This is due to the actual performance in the first half of the fiscal year outperforming the projections, driven by improvements in asset utilization efficiency and the adjustments of rental prices to appropriate levels, along with the effects of structural improvements from comprehensive cost reduction efforts.

The projected full-year operating results will also be revised based on the revisions made to the projected operating results for the sixth-month period ended April 30, 2026.

(Note) The projected operating results are based on information available to the Company as of the date of this document's release.

Actual results may differ from the projected figures due to various factors arising in the future.
